I. PROJECT

1. Project objectives

Main objective of the project was dissemination of good practices related to the mobility of students, academic and administrative staff members, as well as developing of theses and assumptions to be followed supporting international student mobility between universities.

Cooperation of the universities within the project aimed at widening and developing knowledge, skills and competencies of project participants, especially in the field of:

- increasing professional competencies,
- increasing their self-esteem and self-confidence,
- improving foreign language proficiency,
- developing key social competences due to the cooperation in international environment,
- increasing attractiveness in workplace and labour market,
- improving teaching skills (teachers),
- enriching materials and educational aids.

Cooperation within the project is also aimed at:

- developing and realisation of international strategy of participating universities,
- increasing of education level and quality,
- comparing and improving of educational curricula, and in case of Partner Universities, adjusting educational programs to European standards - Benchmarking
- working on common educational programmes for master's students,
- preparing of programmes for double diplomas with Partner Universities,
- developing and exchange of cooperation proposals in the field of research activities which can result in international scientific projects and joint scientific publications.

Exchange of experience and good practices contributed to developing and disseminating ideas about studying abroad, indicating sources of funding for academic international exchange, representing of good practices developed in the Universities.

Problems related to social, legal, environmental barriers and ways of their solution have also been discussed.

Cooperation between the Universities definitely contributed to increase of their prestige on regional and local educational markets.

All objectives of the project have been achieved!

2. Participating universities

a. Poland

- **Wyższa Szkoła Ekologii i Zarządzania w Warszawie**
(University of Ecology and Management in Warsaw)

University of Ecology and Management in Warsaw (UEM) is one of the best private technical – artistic universities in Poland. UEM, established upon the decision of the Ministry of National Education of 18 July 1995 and registered under number 62, more than 20 years conducts education on full time and part time bachelors and masters studies.

Education at the University is conducted within two Faculties: Faculty of Architecture and Faculty of Engineering and Management, on which it is possible to study on 10 fields of studies.

Mission of University of Ecology and Management in Warsaw is high quality, modern and flexible education of studies:

- ready to meet the developmental needs of information society and the knowledge-based economy,
- enriching with their professionalism and intellectual mobility human capital of Masovia, Poland and EU,
- creating new economic, social and cultural values in the spirit of idea of sustainable development, according to expectations of current and future labor market.

University authorities pay attention to the high level of education hiring more than 300 specialists from different fields. Lecturers of UEM are not only scientific workers of other universities in Warsaw, but also practitioners possessing business experience. Due to combination of knowledge of lecturers and representatives of Faculty Councils of Employers, with whom programmes of studies are being discussed (according to European standards), studies in UEM are interdisciplinary, combine theory with practices, due to which are conducted with the application of design approach, teach students independence and ability to take responsible decisions.

g. United States of America

- **Herzing University**

HERZING
UNIVERSITY

Herzing University is a private American university offering degrees worldwide at campuses throughout the United States and through our online programs. Herzing offers expert faculty, contemporary course content, and a global educational perspective.

Herzing University had its beginning in 1965 when it started as a computer training institute in Milwaukee, Wisconsin. In 1970, the name was changed to Herzing Institute and the organisation began to grow through the acquisition of other schools. These included the Wisconsin School of Electronics in Madison, Wisconsin, which has a history dating back to 1948. The name of the school was changed to Herzing College in 1996, and since then the institution has grown to include campuses in eight states plus an online division, which is located with the system headquarters. The addition of graduate programmes in 2009 led to the school's current name, Herzing University.

Herzing University offers students a unique educational experience with career-focused classes, convenient scheduling, and caring faculty and staff.

Herzing University offers over 30 undergraduate programmes in technology, business, healthcare, and public safety and two master's programmes, including six MBA concentrations and three MSN concentrations. The University offers degree programmes that help students grow intellectually, develop personally, think analytically, communicate effectively, achieve career goals and personal goals.

Herzing University is accredited by the Higher Learning Commission. Through this regional accreditation, Herzing University is authorized to offer programs to international students. Herzing University also has programmatic accreditation in various specific degree programs. The University has 9 locations and an online division.

Over 6 000 students attend Herzing annually. The University has 40 000 alumni.

Herzing University offers a study abroad exchange programme at the Dalian Institute of Science and Technology in Dalian, China.

MOBILITIES IN TOTAL			6	8	17	31

University of Ecology and Management in Warsaw within the project from 01.06.2017 to 31.07.2019 hosted in total 21 students, teaching and administrative staff members:

- six students – 1 student from Armenian State Pedagogical University After Khachatur Abovyan, 1 student from Shakarim State University of Semey, 2 students from University of Applied Sciences in Ferizaj, 1 student from University of Niš and 1 student from Sumy State University;

- five academic staff members – 1 from Armenian State Pedagogical University After Khachatur Abovyan, 2 from University of Niš, 1 from National Technical University of Ukraine “Igor Sikorsky Kyiv Polytechnic Institute” and 1 from Herzing University;
- ten administrative staff members – 1 from Armenian State Pedagogical University After Khachatur Abovyan, 1 from Shakarim State University of Semey, 3 from University of Applied Sciences in Ferizaj, 2 from University of Niš, 1 from National University of Environmental and Life Sciences of Ukraine, 1 from Berdyansk University of Management and Business and 1 from Herzing University.

Three academic staff members of UEM conducted lectures for students of Partner Universities – 1 in Armenian State Pedagogical University After Khachatur Abovyan, 1 in University of Applied Sciences in Ferizaj and 1 in University of Niš.

Seven administrative staff members of UEM took part in training or job shadowing organised by Partner Universities – 1 in Armenian State Pedagogical University After Khachatur Abovyan, 1 in Shakarim State University of Semey, 1 in University of Applied Sciences in Ferizaj, 1 in University of Niš, 1 in National University of Environmental and Life Sciences of Ukraine, 1 in National Technical University of Ukraine “Igor Sikorsky Kyiv Polytechnic Institute” and 1 in Herzing University.

It is also worth mentioning that on 21-25 May 2018 the University of Ecology and Management in Warsaw organised Staff Week for representatives from Partner Universities, which was devoted to the issues concerning education systems in Poland and in Partner Countries, quality assurance in education - external and internal instruments, structure and scope of tasks of the most important units at universities, possibilities of educational and research cooperation between Partner Universities, plans concerning further cooperation within Erasmus+ Programme and dissemination of results of projects KA-107 2016, 2017, 2018 within Erasmus+ Programme. During the Staff Week representatives of Partner Universities shared good practices and discussed main problems during realisation of projects.

This event has strongly contributed to:

- development and realisation of the internationalisation strategy of Partner Universities;
- learning the structure, organisational culture and way of operating of the Partner Universities;
- exchange of experiences related to structures, mechanisms and improving the quality of education and quality assurance tools;
- improving the quality of education and services provided for students;
- improving procedures and support mechanisms for the international exchange of students, staff and teachers between Universities;
- developing and exchanging ideas for cooperation within research and development activities;

- facilitating further integration of the Universities from Partner Countries with the European Higher Education Area;
- exchange of good practices connected with breaking social, legal and environmental barriers of cooperation;
- promoting intercultural communication and better understanding of the European values.

UEM - University of Ecology and Management in Warsaw (Poland)
HU - Herzing University

1. Mobility of students for realising part of studies in Partner Universities

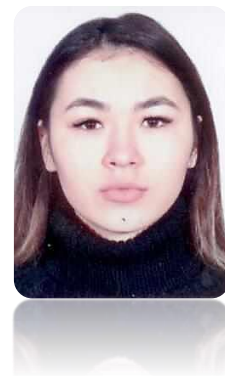

- a. **Name and surname:** **Levon Zatikyan**
- b. **Sending University:** Armenian State Pedagogical University After Khachatur Abovyan (Armenia)
- c. **Receiving University:** University of Ecology and Management in Warsaw (Poland)
- d. **Duration of mobility:** 16.02.2018 - 15.07.2018
- e. **Funding:** 4 110 €
- f. **Description/main results:**

Erasmus+ is an amazing programme giving students amazing opportunities to study abroad. It is a once-in-a-lifetime experience and something which will be hard to forget. You not only learn a lot of new things but it also gives you experience in being mature for the future. Growing up in Armenia I wasn't always the best student and I never would have thought that one day I would be able to be a small part in this big programme. I am very proud and I think about this as a big achievement. Especially when the country hosting you is

Poland - the historical capital of Europe, in my opinion. Being an art lover and an artist myself Warsaw gave me so much inspiration that I know I will go home and start creating in the spirit of Warsaw. I will not only take the knowledge with me back home but also the amazing memories.

- a. **Name and surname:** **Nargiza Tokhtiyeva**
- b. **Sending University:** Shakarim State University of Semey (Kazakhstan)
- c. **Receiving University:** University of Ecology and Management in Warsaw (Poland)
- d. **Duration of mobility:** 19.02.2019 – 19.06.2019
- e. **Funding:** 3 845 €

- a. **Name and surname:** **Lorita Rama**
- b. **Sending University:** University of Applied Sciences in Ferizaj (Kosovo)

- d. **Duration of mobility:** 15.02.2018 – 14.07.2018
- e. **Funding:** 4 025 €
- f. **Description/main results:**

Five months in Poland were the most exciting months of my life. Erasmus really does help you grow up. It's a powerful experience. And It can change your life completely. Believe or not before Erasmus I had this huge fear of leaving my city even for 2-3 hours. I was this introvert person who would never say hi to someone first. I had this fear of being away in different cultures and living with different nationalities. During my Erasmus I had the opportunity to visit 13 different countries. That journey had a huge impact on me as an interior design student. I had the possibility I had the opportunity to learn a lot of interesting information about these countries, to learn

about their architectural history, their design style and when I came home my head was full of new ideas. I felt i was ready to call myself a future designer.

When I look at the map I'm able to remember how I was transformed by the places i have been to and the people I have met and the university I have studied. Each country taught me a different story. And little by little I start embracing vulnerability and discover a new side of myself. This side I never knew it existed. Erasmus really is a huge boost for mind, spirit and self-confidence. This experience grew me professionally but the most importantly, personally.

- a. **Name and surname:** Jana Jovanović
- b. **Sending University:** University of Niš (Serbia)
- c. **Receiving University:** University of Ecology and Management in Warsaw (Poland)
- d. **Duration of mobility:** 15.02.2019 - 14.07.2019
- e. **Funding:** 4 025 €
- f. **Description/main results:**

It is hard to summarise whole experience in few sentences. I have to note that whenever I see someone who knows that I was in Poland and asks me: „How it was?“, my answer is always the same: „After 23 years of life, I can definitely say that these 5 months were the best period of my life“.

Before my trip to Poland I didn't have any expectations. My family was sceptical, they were saying „Why didn't u apply for Germany or Spain when you had a chance? Poland is Eastern country, not developed as West Europe, you will be cold etc.“.

I knew that traveling anywhere for student mobility would benefit my personal and professional development, but if someone would have told me that this experience would be as amazing as it was, I wouldn't believe. I didn't doubt that Poland is right choice, not even for a second. After 5 months of life there I can freely say that Poland is one of my dream countries – it has rich history, culture similar to mine, though a bit hard language, I must be honest, friendly and helpful nation, every possibility for good quality family life, opportunities for traveling and meeting other cultures as well, economy in which it is possible to have decent and normal life.

When it comes to professional development, I was afraid of how will I handle my studies in English, how will I be able to follow lectures and pass my exams. Is my English good enough? It was a huge challenge for me. On the other hand there were also challenges which I was facing for the first time in my life, such as living in another city on your own, meeting new society and fitting in it, being completely independent and many other challenges.

My goals for the mobility were to face all those challenges and test myself personally and professionally and I am glad to say that I passed those tests with better grades than I expected.

- a. **Name and surname:** **Daryna Lysak**
- b. **Sending University:** Sumy State University (Ukraine)
- c. **Receiving University:** University of Ecology and Management in Warsaw (Poland)
- d. **Duration of mobility:** 15.02.2019 - 14.07.2019
- e. **Funding:** 4 025 €
- f. **Description/main results:**

I spent 5 months in University of Ecology and Management in Warsaw as Erasmus student and it was amazing experience. Warsaw already became second home for me and there I met many international friends. It was exciting to live, study and communicate with people from different countries, with different cultures and traditions.

This programme gave me a chance to develop my English, to know about culture of Poland, to improve my communication skills, to get more knowledge in my sphere of studying and compare two educational systems – Ukrainian and European.

For me the main goal of the mobility was to enlarge my knowledge in sphere of management within the educational process in Ukraine. Moreover, I think it was successful because I received information, which sometimes was even new for me. I learned a lot about different approaches and ways of solving management problems, planning resources, choosing organisational structure and people in project team.

Due to this, I saw management from another side and understood that studying it can be even more interesting. All in all, this programme made great contribution in my personal development and increased my chances to be good specialist in future.

2. Mobility of academic staff members for conducting didactic classes for students in Partner Universities

- a. **Name and surname:** **Sirine Shogheryan**
- b. **Sending University:** Armenian State Pedagogical University After Khachatur Abovyan (Armenia)
- c. **Receiving University:** University of Ecology and Management in Warsaw (Poland)
- d. **Duration of mobility:** 08.04.2019 – 12.04.2019
- e. **Funding:** 1 340 €

- a. **Name and surname:** **Jan Cetner**
- b. **Sending University:** University of Ecology and Management in Warsaw (Poland)
- c. **Receiving University:** University of Applied Sciences in Ferizaj (Kosovo)
- d. **Duration of mobility:** 16.04.2018 – 20.04.2018
- e. **Funding:** 1 395 €
- f. **Description/main results:**

During the mobility, I had the opportunity to give a series of lectures on the basics of marketing to students from Ferizaj, Kosovo. After the lectures I had the opportunity to answer student questions not only regarding the content of the lectures, but also the working conditions of an academic teacher in a country belonging to the EU and NATO. I also participated in programme classes. These were final classes. The pass consisted in the fact that the students presented a presentation that concerned marketing tools used in the selected enterprise. My task was to comment on each presentation indicating its strengths and weaknesses.

Thanks to these activities, students were able to familiarise themselves with the content of my lectures and the technique of their presentation used by me. I was able to learn about the exam system used at my host University, and show my requirements. These requirements were slightly higher than

expected by the host teacher, but at my home University I am also considered a very demanding teacher.

Thanks to the mobility to Ferizaj, I also got to know the system of organising teaching activities and managing the university. A visit to Kosovo allowed me to learn the specifics of this country. The explosion of small business resembles the situation in Poland in the 1990s. On the other hand, there are many people with a very traditional way of life.

- a. **Name and surname:** **Bogdan Gorczyca**
- b. **Sending University:** University of Ecology and Management in Warsaw (Poland)
- c. **Receiving University:** Armenian State Pedagogical University After Khachatur Abovyan (Armenia)
- d. **Duration of mobility:** 16.04.2018 – 20.04.2018
- e. **Funding:** 1 480 €
- f. **Description/main results:**

The overall objective of the mobility was to conduct classes to enhance students' knowledge of research methodologies and technics and to share my expertise in quality assurance area with colleagues from the University.

I conducted two classes aimed at improving students skills of data gathering and their awareness of strengths and weaknesses of the technics applied attended by students from different programmes. They were delivered as workshops not lectures, and included short teacher's introductions, group work, student presentations and teacher's feedback to students. It was appreciated by the students

very much because the majority of classes a delivered in a form of lecture while they want to be more active. I also delivered a workshop for the teaching staff, on how to design and develop a study programme. I must admit that the series of teaching and training I delivered was a very enjoyable experience – all

participants were very open and active, eagerly worked in teams and presented the outcomes to the whole audience. Looking at the influence of the visit on me I would like to stress that it enhanced my teaching competencies in the area of dealing with cultural differences, helped familiarising with different educational system and culture. To have a chance to see traces of our culture from before 2000 years on one hand and the house of Charles Aznavour, my idol when I was a student, on the other hand was very interesting, not to say – moving.

The mobility also gave me a chance to refresh my rusty Russian as I had to use it to communicate with people quite often. Yerevan was rather not very quiet place as there were anti-government riots at the time of my stay. It reminded me, in miniature of course, Poland under martial law.

- a. **Name and surname:** Dawid Marczak
- b. **Sending University:** University of Ecology and Management in Warsaw (Poland)
- c. **Receiving University:** University of Niš (Serbia)
- d. **Duration of mobility:** 07.05.2018 - 11.05.2018
- e. **Funding:** 1 395 €
- f. **Description/main results:**

As part of the mobility I gave 8 hours of lectures in Serbian language at the Faculty of Sciences and Mathematics. The lectures covered issues related to my professional work: nature protection in Poland, history of civilization threats, species extinction, the impact of

renewable energy sources on the environment. As part of the mobility, there was also a meeting with authorities of the Institute of Biology and Ecology - Director Ph. D. Perica Vasiljević, as well as employees and students. During the meeting we discussed results of studies implemented by the Faculty of Sciences and Mathematics in Serbia and mine conducted in Poland. We also started scientific cooperation between the University of Ecology and Management in Warsaw and Professor Vladimir Žikić and Ph. D. Saša Stankiević in the field of parasitic insects from the Braconidae family in Poland and selected groups of beetles in southern Serbia.

During the mobility, we managed to organise three field trips: to Sićevačke Klisure Nature Park near Niš, Jelašnicke Klisure Canyon and to the Trem Peak in the Suva Planina massif. During the time collaborative field research was conducted and, thanks to great kindness of people living in mountain villages, the elements of ethnography and folk culture

of southern Serbs were learned. Spending 5 active days with Serbs surely resulted in my language skills improvement.

- a. **Name and surname:** **Dejan Vasović**
- b. **Sending University:** University of Niš (Serbia)
- c. **Receiving University:** University of Ecology and Management in Warsaw (Poland)
- d. **Duration of mobility:** 22.04.2019 – 26.04.2019
- e. **Funding:** 1 255 €
- f. **Description/main results:**

That was my second teaching mobility within Erasmus+ at the WSEiZ. It was an interesting experience that will certainly be remembered for the long time. I came from University in Nis, Faculty of

Occupational Safety, Environmental Protection Department, with a strong focus on water resources protection and environmental safety. Having that in mind, the primary goal of performed mobility was to exchange teaching techniques and practice within the field of environmental protection, with strong focus on emerging

environmental quality issues management. The secondary goal was directed to development of future network of contacts and academic and personal development.

During my stay I had beautiful teaching experience with international group of students, mainly.

With no less importance is cultural, traditional and historical heritage of the Warsaw, to which my hosts also made a point to me. Regarding the personal competences, I gained significant additional experience within the area of environmental protection in general, with particular regards to the issues of sustainable resource management, environmental management systems and environmental impact assessment. At the end, I had opportunity to expand a scientific-research cooperation with the colleagues that I had met.

- a. **Name and surname:** **Vuk Milošević**
- b. **Sending University:** University of Niš (Serbia)
- c. **Receiving University:** University of Ecology and Management in Warsaw (Poland)
- d. **Duration of mobility:** 14.01.2019 – 18.01.2019
- e. **Funding:** 1 255 €
- f. **Description/main results:**

During my mobility I had a chance to jointly work with professors and students at different classes. This gave me the opportunity to get to know the study process at UEM. I was excited to see all the differences compared to the University of Niš, Faculty of Civil Engineering and Architecture where I work, and explore possibilities for implementing these in work with my students. Working with students at UEM gave me a chance to see their level of competences at different years of study. I managed to meet many of the professors at the host institution and thus widen my network of professional contacts. During my mobility, I also had a chance to visit some of the most important sites in Warsaw. I can also point out that the mobility had a successful impact on cooperation of professors from both institutions in a Scientific Board of an International architectural exhibition. I expect to continue the collaboration between the University of Niš, Faculty of Civil Engineering and

Architecture and the University of Ecology and Management in Warsaw, especially in the field of scientific research.

- a. **Name and surname:** **Denys Derevianko**
- b. **Sending University:** National Technical University of Ukraine “Igor Sikorsky Kyiv Polytechnic Institute” (Ukraine)
- c. **Receiving University:** University of Ecology and Management in Warsaw (Poland)
- d. **Duration of mobility:** 14.05.2018 – 18.05.2019
- e. **Funding:** 1 255 €

- a. **Name and surname:** **Jose Cardenas**
- b. **Sending University:** Herzing University (USA)
- c. **Receiving University:** University of Ecology and Management in Warsaw (Poland)
- d. **Duration of mobility:** 13.05.2019 – 17.05.2019
- e. **Funding:** 1 800 €
- f. **Description/main results:**

Last May, I participated in the Erasmus+ Mobility Teaching Programme in partnership with the University of Ecology and Management in Warsaw, Poland. The following goals were accomplished:

- enrichment of teaching skills, materials, and resources,
- exchange of teaching techniques and practice within the field,
- personal and academic development,
- expanding professional contacts,
- becoming acquainted with the structure, culture, organizational culture and way of operating of the University of Ecology and Management in Warsaw,
- learning the history and culture of Poland.

The Erasmus+ Mobility Teaching Programme contributed to my professional development allowing me to explore and expand teaching methods, techniques, and tools. I presented a lecture in the Use of

Virtualization technologies to support hands-on activities in Technology and Management related courses. The diverse group of students from Poland and other countries engaged and participated in the lecture. Moreover, the students discussed and explored opportunities to use virtualization technologies in their studies.

The Erasmus+ Mobility Teaching Programme also allowed me to meet faculty and academic staff from the University of Ecology and Management in Warsaw to share experiences and best practices in different areas such as:

- discussed International Students, Online Education, and Computer Science Programme,
- shared experiences with International Students (India & China),
- shared Student Services activities for International Students,
- responded questions related to Online Education,
- discussed the Computer Science Programme that the University of Ecology and Management is planning to offer.

Furthermore, the Erasmus+ Mobility Teaching Programme extended my professional and personal competencies beyond disciplinary knowledge. Also, the programme allowed me to participate in

cultural activities to expand my knowledge and understanding of Polish culture and customs. These activities included interacting with people, as well as visits and tours to the Warsaw Old Town, the Royal Castle in Warsaw, Museum of Polish Vodka, Łazienki Park, Museum Fryderyka Chopina, Warsaw Uprising Museum.

3. Staff mobility for training

- a. **Name and surname:** **Sirine Shogheryan**
- b. **Sending University:** Armenian State Pedagogical University After Khachatur Abovyan (Armenia)
- c. **Receiving University:** University of Ecology and Management in Warsaw (Poland)

- d. **Duration of mobility:** 24.06.2019 - 28.06.2019
- e. **Funding:** 1 255 €
- f. **Description/main results:**

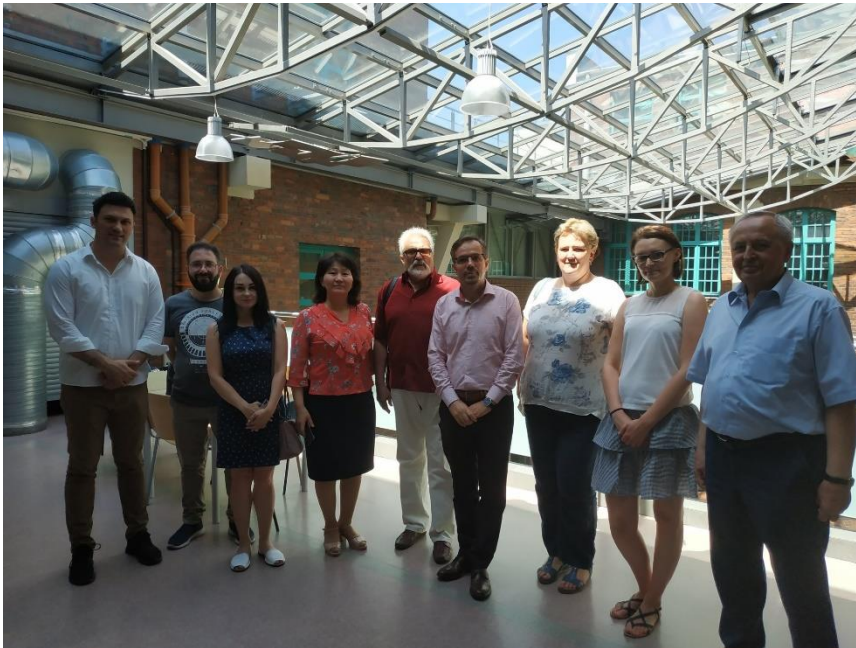

Through this project we have achieved scientific and professional development related to our needs as a university, with the aim of advancing research, applying lessons from theory to practice, the importance of applying innovations and other issues of interest to the functioning of the University. Higher institutions and in this case the University of Applied Sciences in Ferizaj, which as a new institution in Kosovo, as part of the Erasmus+ project, has been a significant contribution to enhancing our professional competence. Especially in:

- educational system, exchange of ideas and opinions,
- lessons learned from good practices,
- implementation of procedures and support mechanisms for international exchange of students, staff between universities,
- developing foreign language skills,
- enabling and developing opportunities for job relevance and professional development,
- expanding professional contacts,
- knowledge of the university structure, organisational culture and operation.

- a. **Name and surname:** Florit Hoxha
- b. **Sending University:** University of Applied Sciences in Ferizaj (Kosovo)
- c. **Receiving University:** University of Ecology and Management in Warsaw (Poland)

- e. **Funding:** 1 255 €

f. **Description/main results:**

Mobility in Poland was very great experience. During the course for a week we were able to exchange our collegial and institutional good practices. The purpose of the training was to ensure the quality in the education system with particular emphasis in the Polish education system and the participating countries. As

training had an impact on professional development as we shared good practices on many issues, but more importantly we discussed ways to work with students during their studies and post-study employment opportunities. As part of this mobility, we have increased our competence in the knowledge of quality assurance in the field of education.

We meet lot of people from different countries and share lot of stories, also we visited museums and many significant places for Polish culture.

- a. **Name and surname:** Besa Rexhepi
- b. **Sending University:** University of Applied Sciences in Ferizaj (Kosovo)
- c. **Receiving University:** University of Ecology and Management in Warsaw (Poland)
- d. **Duration of mobility:** 21.05.2018 - 25.05.2018
- e. **Funding:** 1 255 €
- f. **Description/main results:**

I have participated in the staff week organised within Erasmus+ programme organised at the University of Ecology and Management in Warsaw, Poland.

The meeting was devoted to issues related to the quality of education, increasing the effectiveness of international cooperation and student and staff exchange. Discussions during the training were inspirational and thought-provoking. We have also exchanged good practices concerning faculty's

administration and service of students. Getting to know education systems, in particular higher education systems in Poland and other countries participating in the project, was also a very interesting experience. It is also worth mentioning that the mobility positively impacted our work in the student service, where we started applying the experiences gained during the mobility.

- a. **Name and surname:** Jan Diehl Michałowski
- b. **Sending University:** University of Ecology and Management in Warsaw (Poland)
- c. **Receiving University:** Shakarim State University of Semey (Kazakhstan)
- d. **Duration of mobility:** 09.07.2019 – 13.07.2019
- e. **Funding:** 1 940 €

- a. **Name and surname:** **Katarzyna Adamiak**
- b. **Sending University:** University of Ecology and Management in Warsaw (Poland)
- c. **Receiving University:** University of Applied Sciences in Ferizaj (Kosovo)
- d. **Duration of mobility:** 24.06.2019 – 28.06.2019
- e. **Funding:** 1 395 €
- f. **Description/main results:**

As part of the Erasmus+ mobility programme, I had the opportunity to visit the University of Applied Sciences in Ferizaj in Kosovo. During five days I was on business meetings regarding cooperation between University and wood industry companies. I participated in exams and the evaluation process. During the mobility, I had the opportunity to observe

the solutions used by University in administration field. I also had the opportunity to learn about Kosovo history, and economic development of the post-war country.

- a. **Name and surname:** **levgeniia Mashukova**
- b. **Sending University:** University of Ecology and Management in Warsaw (Poland)
- c. **Receiving University:** National Technical University of Ukraine “Igor Sikorsky Kyiv Polytechnic Institute”
- d. **Duration of mobility:** 27.05.2019 – 31.05.2019
- e. **Funding:** 1 395 €

f. **Description/main results:**

In May 2019 I took part in the historical event – the first international staff training week in Ukraine organised by the Kyiv Polytechnic University (KPI).

As I work in the Dean's Office and deal on a daily basis with providing services to the students, including Erasmus and other international students, my goal was to learn practices in this field. The environment at KPI considerably differs

from my University due to much bigger scale and different educational and organisational systems, so it was very interesting to compare our experience.

Thanks to numerous workshops and presentations, this Erasmus mobility gave me excellent opportunity to get to know the best practices of the receiving and participating universities (from Great Britain, Luxembourg, Italy, Norway, Czech, Turkey and France) in the following topics: services for international students, promotion, recognition of academic results, international programmes, digitalisation of documents, etc., as well as to share our practices, as we have more experience in dealing with international students. The most valuable practices for me was perhaps the organisation of students' life at KPI.

KPI staff showed exceptional hospitality. I had a chance to get acquainted with the University senior management, library, scientific club, student's club, University museums and other facilities, and learn the history of one of the oldest universities in Ukraine. The scale was impressive.

As for cultural programme, it was versatile, as the university representatives showed us not only the city but also took us for a whole-day trip outside the city and to the ballet.

Therefore I can finalize that this mobility has boosted my professional development and my professional competences, as well as allowed me to have a really good time at the best technical university of Ukraine.

- a. **Name and surname:** **Bogdan Gorczyca**
- b. **Sending University:** University of Ecology and Management in Warsaw (Poland)
- c. **Receiving University:** Herzing University (USA)
- d. **Duration of mobility:** 10.10.2018 – 14.10.2018
- e. **Funding:** 2 200€
- f. **Description/main results:**

The overall objectives of the mobility were gaining skills significant for the quality of work and professional development, expanding professional contacts and becoming acquainted with the structure, culture, organisational culture, and way of operating of the Herzing University.

After a very warm welcome I had a series of activities which allowed me to understand

the quality assurance system at Herzing University and a conduct and a role of Student Success Meeting in a quality assurance system, to get familiar with a software used in a quality assurance process and to understand how an artificial intelligent learning system can increase efficiency of teaching and learning process. I also visited some classes and was impressed by multicultural composition of student groups and the level of attention which staff pays to an induction process of new students, especially international ones. My observation also was that the slogan “student first” which is fundamental for Herzing University mission really works and a student centred teaching and learning approach is in the University in place indeed.

An interesting and rewarding part of the visit was a meeting with the group of MBA students. A part of it was my presentation on “Business and Technology – from European perspective” followed by the discussion.

All these above resulted in improving my professional competencies, especially in the area of quality assurance and on-line learning, and language competencies, especially how to communicate in English with people of different origins. It allowed me to develop my pedagogic skills (intelligent learning systems!) as well. Student Success Meeting as a part of a support system for on-line students and intelligent learning software is what I would like to introduce to our University.

Atlanta is a place of birth of Martin Luther King, Coca Cola and a headquarter of CNN. It is also a venue of the biggest in the USA Proud parade which I had a chance to see. Those so different in their nature events and facts helped me to improve my capacity to adapt to different cultures and working systems and better understand the events taking place in the USA,

and the phenomenon of this country itself.

The visit was not only very successful to me but it also resulted in expanding both my professional contacts and the relation between our universities.

- a. **Name and surname:** [Lia Sayadyan](#)
- b. **Sending University:** University of Ecology and Management in Warsaw (Poland)
- c. **Receiving University:** National University of Environmental and Life Sciences of Ukraine (Ukraine)
- d. **Duration of mobility:** 13.11.2017 – 17.11.2017
- e. **Funding:** 1 395 €
- f. **Description/main results:**

Being a member of the administrative staff in a private university, I find my experience gained through staff mobility in one of the largest public universities in Ukraine useful and rather captivating.

Upon arrival, I had a meeting with the university authorities, including the faculty deans, deputy rectors, the head of International Cooperation Department, and students. I had a chance to talk about Erasmus+ programme with the students of the Faculty of Agrarian Management. I could represent the University of Ecology and Management in Warsaw and also discuss with the students and staff members future opportunities of mobility and possible fields of cooperation within Erasmus+ programme.

The meeting showed that our universities were similar both in the area of training and in task management. I am glad that nowadays students and university staff can use academic mobility and visit

other universities both within and outside Europe. This type of relationship helps strengthen professional network and build a long-term multilevel cooperation. Moreover it is important to use opportunities offered by Erasmus+ programme not only for students, but also for the university staff members, especially when it comes to cooperation with the universities of Partner Countries, such as Ukraine.

- b. **Sending University:** National University of Environmental and Life Sciences of Ukraine (Ukraine)
- c. **Receiving University:** University of Ecology and Management in Warsaw (Poland)
- d. **Duration of mobility:** 15.05.2017 – 19.05.2017
- e. **Funding:** 1 255 €
- f. **Description/main results:**

The purpose of mobility was staff training. I am conducting duties as Senior lecturer at my university and as a deputy head of the Department of Planning and Finances of the University. This was my first international experience as mobility exchange. Part of my responsibilities at the University related with provision of administrative support to our University students and staff in financial aspect of different international projects. The goals of my mobility were directed on taking experience in international projects management and coordination as well as meeting with the educational issues of hosting institution. The mobility fully met my expectations as I received first-hand information about experience of University of Ecology and Management in Warsaw in coordination and supervision of Erasmus project, other Polish and European projects. I also had a meeting with different departments of the university, met with the details of education and research process organisation etc.

Another important point that such international mobility is a part of our annual evaluation as teaching staff in my home University and this bring me additional grades in individual rating evaluation.

Additionally this is very important for future carrier as international training is an obligatory

precondition to obtain associate professor position which I am going to apply for at the end of 2019.

Together with my professional benefits, I had an excellent opportunity to visit cultural and historical places in Warsaw, such as Old town, Royal castle, Palace of Culture and Science, Łazienki Królewskie Park-Palace Complex etc. I am very grateful to our partner University and

Erasmus+ KA1 project for such an excellent opportunity.
