Type of contract : Permanent

Localisation : Santiago 10000, CL

Contract duration : Undefined

Level of studies : Bachelor's Degree

Years of experience : 6 months - 1 year

Company description :

Planet Expat provides career-boosting paid internships in some of the most innovative and dynamic Start-ups in Latin America, Europe and the USA. We connect students with promising start-ups abroad through a program that allows them to gain valuable professional experience in international environments while being key contributors to innovative projects.

"We are a privately funded Argentinian company developing technology and fostering innovation for the mobile industry. Based in our offices in Buenos Aires, Santiago Rio, we operate in South America, Brazil and the US.

We provide a full-scale solution to Latin American mobile operators, including customized SIM cards in all their form-factors, Over-the-Air platform development for appropriate management of services and promotion of contents provided by mobile terminals. "

Job description :

Develop digital products (web sites, internal portals) together with the Country Manager

Perform digital products/web maintenance

Conduct Daily Web Product Audits to detect bugs or errors and solve them

Support the technical team in daily operations: testing, problem solving, error documentation, etc.

Required profile :

Graduate in IT Engineering, Web Development or related studies

Excellent Spanish and English

Previous experience in frontend/backend development is ideal

A good command of HTML, CSS, JS, PHP, Wordpress, Mysql, Linux, Apache (or Nginx) is a must

A good command of NodeJS, MongoDB and Aws Service is a great plus

Proactivity and ability to prioritize is desired

Open to feedback and willing to learn
