Let's be remarkable.

Start something big today. Apply now for position:

## Senior Test Automation Engineer

Jutrzenki 105, 02-231 Warszawa, Poland

**Do you want beneficial technologies being shaped by your ideas? Whether in the areas of mobility solutions, consumer goods, industrial technology or energy and building technology- with us, you will have the chance to improve quality of life all across the globe. Welcome to Bosch.**

Whether in areas of mobility, industrial technology, consumer goods, or energy and building technology, we constantly provide highly efficient solutions to markets worldwide. In doing so, we don't just measure our successes in terms of economic growth, but above all in terms of improving people's quality of life, because we feel committed to values that are based on responsibility. This is only possible with the help of a global network of more than 405,000 highly committed employees, with pioneers who break new strategic ground every day. So why not join us in starting something remarkable? Make it happen.

### Your contribution to something big:

- ▶ Participation in the design of automated tests with different tools (at various levels) for IoT, web, Desktop and cloud applications
- ▶ Advising the Project team on the introduction of a suitable test automation and concept
- ▶ Identification for the automation of suitable use cases and requirements
- ▶ Independent planning of test activities, milestones and resources in agile and classic project management methods
- ▶ Configuration, adaptation and use of test tools and introduction of suitable test automation tools
- ▶ Creation, execution, evaluation and maintenance of automated GUI and interface tests, in particular regression tests

### Benefits:

- ▶ Secure employment based on contract of employment
- ▶ Working in a dynamic environment in international culture
- ▶ Broad access to trainings, conferences and webinars
- ▶ Private medical care, sport pass, co-financing lunches, language and other training

### What distinguishes you:

- ▶ 5+ years of solid experience with test automation
- ▶ Excellent knowledge of test automation, testing tools (like UFT, LeanFT, Selenium, Worksoft etc.) and test processes (Agile development, preferred ISTQB certification)
- ▶ Experience with one or more of the following: HTML/CSS, Java, JavaScript, SQL
- ▶ Degree in IT (software/system engineering, software architecture, computer science, information technology, electrical engineering or similar)
- ▶ Curious about new technologies and tools
- ▶ Fluent English communication skills (ability to explain complex technical issues)
