**Type of contract :** Internship

**Localisation :** Porto 4200, PT

**Contract duration :** From 3 to 7 months

**Level of studies :** Bachelor's Degree

**Years of experience :**

**Company description :**

skeeled.com is the only software (Europe wide) able to multi-post job-offers in one click to 300+ job boards and 1000+ schools in Europe, undertake a first (algorithmic) evaluation of all your candidates based on CV, personality insights and video interviews as well as providing advanced applicant tracking functionalities.

**Job description :**

Description:

skeeled is a european tech startup currently based in Belgium and Luxembourg, moving to Porto on the first quarter next year.

We are building a software to disrupt the HR scene, and it's being an amazing journey so far.

You can check more information at <http://www.skeeled.com/>

We work with:

- \* Node.js v6 (the current LTS version)
- \* Angular v1 (because we don't like 2  $\_\_()$ )
- \* MongoDB (non-relational database)

**Required profile :**

The word "intern" is merely a formality, everyone works the same here. Their best. And we don't accept less than that.

You WILL be part of team.
